“ It may sound dramatic but the service has literally changed our lives. I was drowning in motherhood and knowing I had EYSS in our corner made me feel like I could do it. ”

OUT OF SCHOOL HOURS

By broadening our reach within the Out of School Hours Care sector, we aim to provide accessible, quality care that not only addresses immediate needs but also contributes to building a resilient, inclusive community for the future. This growth represents a long-term investment in supporting families and fostering a positive environment where children can connect, learn, and grow.
